

CETCO appoints MB Petroleum Services LLC as Middle East agent

CETCO Oilfield Services Company has appointed MB Petroleum Services LLC, a subsidiary of MB Holding Company, as an exclusive agent in The Sultanate of Oman.

The contract means MB Petroleum Services will be responsible for promoting, selling, providing infrastructural, logistical and technical support as required and representing CETCO's interests in Oman.

MB Petroleum Services is one of the largest and most successful oilfield service companies in the Middle East, providing drilling and integrated well services.

With an emerging Middle East presence, CETCO believed it is important to capitalise on its current status. The appointment of an established and reputable representative company will allow CETCO to further increase its market penetration in this region.

MB Petroleum Services will be promoting and selling a number of CETCO's products and services including, the supply, rental and servicing of equipment and products for the waste water streams common to the oilfield areas on and offshore. While the supply of manpower and training for related services will continue to be provided by CETCO, MB Petroleum will have a license to retail these services in addition to the promotion and sales of CETCO's patented waste water management technologies including CrudeSep and CrudeSorb.

Commenting on this new venture, Euan Morrison, eastern hemisphere operations manager

Morris Hoagland, general manager of CETCO Oilfield Services Company met with Said Mufarji, general manager of MB Petroleum in Aberdeen recently

of CETCO Oilfield Services Company said:

"We are thrilled to have appointed MB Petroleum Services as an agent to represent CETCO in Oman.

"Having recently undertaken key projects in the Middle East region it is important for us to make the most of this success and ensure our products

and services remain available.

"MB Petroleum is a very well established and quality oilfield services company. We firmly believe by having them act as a representative company for CETCO, we can augment our sales presence in the Middle East and in particular, Oman." ■
